

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

A propos de ce livre

Ceci est une copie numérique d'un ouvrage conservé depuis des générations dans les rayonnages d'une bibliothèque avant d'être numérisé avec précaution par Google dans le cadre d'un projet visant à permettre aux internautes de découvrir l'ensemble du patrimoine littéraire mondial en ligne.

Ce livre étant relativement ancien, il n'est plus protégé par la loi sur les droits d'auteur et appartient à présent au domaine public. L'expression "appartenir au domaine public" signifie que le livre en question n'a jamais été soumis aux droits d'auteur ou que ses droits légaux sont arrivés à expiration. Les conditions requises pour qu'un livre tombe dans le domaine public peuvent varier d'un pays à l'autre. Les livres libres de droit sont autant de liens avec le passé. Ils sont les témoins de la richesse de notre histoire, de notre patrimoine culturel et de la connaissance humaine et sont trop souvent difficilement accessibles au public.

Les notes de bas de page et autres annotations en marge du texte présentes dans le volume original sont reprises dans ce fichier, comme un souvenir du long chemin parcouru par l'ouvrage depuis la maison d'édition en passant par la bibliothèque pour finalement se retrouver entre vos mains.

Consignes d'utilisation

Google est fier de travailler en partenariat avec des bibliothèques à la numérisation des ouvrages appartenant au domaine public et de les rendre ainsi accessibles à tous. Ces livres sont en effet la propriété de tous et de toutes et nous sommes tout simplement les gardiens de ce patrimoine. Il s'agit toutefois d'un projet coûteux. Par conséquent et en vue de poursuivre la diffusion de ces ressources inépuisables, nous avons pris les dispositions nécessaires afin de prévenir les éventuels abus auxquels pourraient se livrer des sites marchands tiers, notamment en instaurant des contraintes techniques relatives aux requêtes automatisées.

Nous vous demandons également de:

- + *Ne pas utiliser les fichiers à des fins commerciales* Nous avons conçu le programme Google Recherche de Livres à l'usage des particuliers. Nous vous demandons donc d'utiliser uniquement ces fichiers à des fins personnelles. Ils ne sauraient en effet être employés dans un quelconque but commercial.
- + *Ne pas procéder à des requêtes automatisées* N'envoyez aucune requête automatisée quelle qu'elle soit au système Google. Si vous effectuez des recherches concernant les logiciels de traduction, la reconnaissance optique de caractères ou tout autre domaine nécessitant de disposer d'importantes quantités de texte, n'hésitez pas à nous contacter. Nous encourageons pour la réalisation de ce type de travaux l'utilisation des ouvrages et documents appartenant au domaine public et serions heureux de vous être utile.
- + *Ne pas supprimer l'attribution* Le filigrane Google contenu dans chaque fichier est indispensable pour informer les internautes de notre projet et leur permettre d'accéder à davantage de documents par l'intermédiaire du Programme Google Recherche de Livres. Ne le supprimez en aucun cas.
- + *Rester dans la légalité* Quelle que soit l'utilisation que vous comptez faire des fichiers, n'oubliez pas qu'il est de votre responsabilité de veiller à respecter la loi. Si un ouvrage appartient au domaine public américain, n'en déduisez pas pour autant qu'il en va de même dans les autres pays. La durée légale des droits d'auteur d'un livre varie d'un pays à l'autre. Nous ne sommes donc pas en mesure de répertorier les ouvrages dont l'utilisation est autorisée et ceux dont elle ne l'est pas. Ne croyez pas que le simple fait d'afficher un livre sur Google Recherche de Livres signifie que celui-ci peut être utilisé de quelque façon que ce soit dans le monde entier. La condamnation à laquelle vous vous exposeriez en cas de violation des droits d'auteur peut être sévère.

À propos du service Google Recherche de Livres

En favorisant la recherche et l'accès à un nombre croissant de livres disponibles dans de nombreuses langues, dont le français, Google souhaite contribuer à promouvoir la diversité culturelle grâce à Google Recherche de Livres. En effet, le Programme Google Recherche de Livres permet aux internautes de découvrir le patrimoine littéraire mondial, tout en aidant les auteurs et les éditeurs à élargir leur public. Vous pouvez effectuer des recherches en ligne dans le texte intégral de cet ouvrage à l'adresse <http://books.google.com>

AVANT-PROPOS

En donnant au présent ouvrage le titre de « dictionnaire », nous ne nous sommes nullement dissimulé les difficultés inséparables d'une pareille entreprise. Aussi il aurait peut-être mieux valu lui donner tout simplement les caractéristiques et le nom d'Index ; car nous osons espérer que, sous ce dernier rapport, l'ouvrage suffira aux besoins des savants qui ne seront pas trop exigeants. Au point de vue de la commodité du lecteur et surtout des commençants, il nous a cependant paru utile de distinguer d'une façon simple et nette les groupes qui pouvaient prêter à confusion ; et comment pourrait-on atteindre un pareil but, sinon en indiquant, au moins d'une manière générale, le sens de chaque groupe ? Ce faisant, nous avons soigneusement consulté les volumes V—VII du dictionnaire de M. BRUGSCH, dont nous nous sommes dispensé de citer le nom dans chaque cas particulier. Qu'il suffise à cette occasion

de faire remarquer que — sauf une vingtaine ou tout au plus une trentaine de groupes hiéroglyphiques — toutes nos explications ont été empruntées à l'ouvrage du grand savant allemand.

Il est sans doute inutile de relever — ce que chaque égyptologue connaît à merveille par sa propre expérience — que la transcription de textes hiératiques est une transcription de circonstance : en tenant compte de chaque signe hiératique, on obtient assez souvent des groupes hiéroglyphiques qu'on chercherait vainement dans les inscriptions sacrées des monuments. En outre, certaines lettres cursives ont plusieurs valeurs, et il n'est pas aisé de dire laquelle doit être employée dans chaque cas particulier ; p. ex. : la forme hiératique de $\overline{\text{r}}$, qui se rend tout aussi bien par $\overline{\text{r}}$ ou par $\overline{\text{r}}$, ou certains sigles marquant des désinences, comme celui dont les correspondants hiéroglyphiques peuvent se retrouver en $\overset{\circ}{\underset{\text{w}}{\text{w}}}$, $\overset{\circ}{\underset{\text{w}}{\text{w}}}$, $\overset{\circ}{\underset{\text{a}}{\text{a}}}$, $\overset{\circ}{\underset{\text{a}}{\text{a}}}$ [voire même $\overset{\circ}{\underset{\text{r}}{\text{r}}}$], etc. Les textes hiéroglyphiques doivent évidemment nous fournir des indications précieuses à cet égard, mais ils n'épuisent nullement la matière ; et encore le langage de chaque scribe n'a-t-il pas été partout le même. Quiconque veut bien considérer ces circonstances, ne nous blâmera probablement pas, si, dans les transcriptions, nous n'avons pas toujours su retrouver la forme exacte. Sur un point spécial, qu'on nous permette de fixer en passant l'attention des savants : j'entends l'emploi du signe hiératique $\overline{\text{r}}$ [= $\overline{\text{r}}$] devant les pronoms-suffixes. Nous croyons qu'ici le signe en question appartient en général au pronom et non pas au substantif qui

en est suivi, quoique nous n'ayons pas partout appliqué cette règle dans notre ouvrage.

Outre les mots, que l'état actuel de la science ne nous permet pas d'expliquer, il en est, dans notre dictionnaire, quelques-uns qui peut-être dès maintenant sont regardés comme mal expliqués. Rien d'étonnant à cela, car d'un côté tous les indexes ne peuvent renfermer les mêmes mots; de l'autre, les nouveaux égyptologues n'auront pas su rassembler autant de matériaux que leurs maîtres et devanciers. En sollicitant pour ce cas particulier, l'indulgence de nos confrères, nous comptons sur une critique indulgente.

Les mots composés ont été classés sous l'un des mots partiels qui en forment l'unité. Tels composés qui forment toute une phrase ne sont en général donnés entiers nulle part. On les retrouvera, en consultant l'index en détail. Les noms de nombre ne sont indiqués que quand ils entrent dans les parties narratives de notre texte.

Nous nous réservons de revenir sur les points douteux ou moins bien expliqués de notre dictionnaire, dans un ouvrage prochain, où nous comptons examiner plusieurs des questions philologiques, que soulève l'étude du Papyrus Harris N° 1, au nombre desquelles figure en premier lieu celle des dialectes. Nous avons déjà d'autre part¹ effleuré cette dernière question, et bien que sur deux ou trois points de détail on puisse apporter des modifications, nous osons espérer que les

1) *Dialectes égyptiens retrouvés au Papyrus Harris N° 1*, par KARL PIEHL. Stockholm, 1882, 18 pages in 8°.

vues qui y ont été exposées, vues que nous maintenons toujours, rencontreront l'approbation des savants. En étudiant notre dictionnaire du Papyrus Harris N° 1, on pourra du reste augmenter considérablement les preuves données dans le travail sus-mentionné, en faveur de cette nouvelle théorie.

Les travaux qu'ont consacrés MM. BIRCH, CHABAS et EISENLOHR à l'interprétation de notre papyrus nous ont été d'un précieux secours, et sous ce rapport nous tenons à exprimer ici nos obligations à ces savants. Mais à aucun savant nous ne devons autant pour la composition de notre ouvrage qu'à M. BRUGSCH. Nous nous estimons fort heureux que cet illustre égyptologue ait bien voulu que notre modeste livre parût sous le patronage de son nom.

Puisse au moins la tâche principale de notre ouvrage — de donner un *index* aussi complet que possible des mots qui se trouvent au Papyrus Harris N° 1 — avoir été remplie, et notre but sera pleinement atteint.

Stockholm, 3 Octobre 1882.

KARL PIEHL.
